- With our AutoCAD Training, we help and aid our customers with the latest tools and techniques of software. The AutoCAD software is the most popular and widely used system for computer aided drafting solutions. The extensive and detailed program helps the course participants in increasing their productivity and enhancing the skill sets. Some of the key skills in which the training arms our customers, include the ability to create:
 - Technical Drawings
 - Complex 3D Models
 - Photorealistic Renderings
 - Detailed Visualizations

Hospitality Training Programs

- Executive Hotel Management Program creates a balance of theoretical education and applied practical training. We provide students the opportunity to put the theories learned in class into immediate use.
- **Quality** ~ We guarantee reliable and productive consultants.
Productivity ~ Over 94% of our clients have done repeat business.
- Global Solution's training is supported by extensive course ware that is designed to serve both as a guide to learning and to verify . The courseware is designed by the experts of the industry which has been widely appreciated and is much sought after by professionals within the industry.

Business Goals

To be one of the preferred training company in India and Overseas.

Identifying Needs

- At Global solutions we believe for training to be efficient and productive it must be precisely defined and packaged.
Global's team will work closely with your company for your present and future training needs. We would work out the schedule for the training and create a perfectly packaged training programs, which will result in more efficient and productive output for your people.
- We do your homework for you
We technically screen to verify competence.
We check references.
Only candidates who have expressed a sincere interest in your company are considered.

Ethics and Integrity

- The driving force of our entire business processes is integrity and honesty; it shows through in every facet of our business. At Global Solutions, we strive to create a team environment for our clients, partners, consultants and staff that encourage and facilitate productivity and happiness. Only as team members working together can we build and implement the highest quality consultancy to meet today's market demands. We are committed to maintain a code of ethics as a formal standard of doing business which will help foster the growth of the technical staffing we provide.
